

JEYALETSHMI MACHINE WORKS

Manufacturers of Textile Machinery

WHERE **TRADITION** MEETS

Innovation

With a legacy spanning over 38 years

ABOUT US

Welcome to ***Jeyaletshmi Machine Works***, where tradition meets innovation. With a legacy spanning over **38 years**, we take pride in being pioneers in the Technical Textile Twisting machinery manufacturing industry.

Jeyaletshmi Machine Works stands as a dynamic and innovative force in the rapidly evolving global textile machinery market. With a rich legacy of expertise, Sri.K.V.Kalyanasundaram, boasting an impressive 60 years tenure in textile machinery design at Textool Co., Ltd., a renowned name in the Textile Machinery Industry, laid the foundation for our success. Stepping into the role of Managing Partner, Sri.K.Nandagopal, son of Sri.K.V.Kalyanasundaram, has dedicated the past 40 years to further developing the company and contributing invaluable efforts.

Our commitment to staying at the forefront of innovation and progress is evident with the infusion of fresh perspectives from the younger generation. Mr. N. Jeyakrishna, a highly qualified professional with a master's degree in Industrial Engineering from North Carolina University, has recently joined our ranks. His pivotal role in product development reflects a seamless integration of traditional wisdom and contemporary insights, propelling Jeyaletshmi Machine Works to new heights in the dynamic and competitive global textile machinery market.

We have successfully exported our machines to the countries such as Kenya, Saudi Arabia, Sudan, Ethiopia, Tunisia, Srilanka, Bangladesh, Germany, Ludhiana, Mexico, Algeria, South Africa etc., and getting repeated orders.

Discover Our Latest Achievements!

We're excited to announce the successful manufacturing of cutting-edge machinery for Nylon Fishing Net Yarns, Marine Ropes, Ballet Twines, Jute Threads,

Fibre Glass Threads and Microfilter Applications in industries like paper processing.

Elevate your operations with our latest innovations!

UNMATCHED EXPERTISE

Innovative Solutions for Every Textile Need

Our journey is marked by continuous innovation. We understand that every textile manmade fibres are unique to their application and that's why we specialize in crafting customized textile machines

tailored to the customer specific requirements. Our team of experts combines decades of experience with cutting-edge technology to deliver solutions that set industry standards.
